THE AUTHOR

Ester Albini is an official teacher of the Italian Fitness Federation (FIF) and the Swiss Academy of Fitness & Sports (SAFS). She is a Reebok Master Trainer, a therapist of the Mézière-Bricot method and an international Presenter specialized in posture training and toning. Owner of the Ester Albini Pilates Academy, she invented the Woodpole Pilates and B.B. Relaxing methods.

TABLE OF CONTENTS

Acknowledgements	7
Free & Pilates Academy	9
Introduction	11
Chapter 1. What is fascia	13
1.1 Fascia and myofascial system	13
1.1.1 Historical notes	13
1.1.2 What is fascia	14
1.1.3 Fascia is connective tissue	18
1.1.4 Anatomy of fascia	20
1.2 Tensegrity	22
1.3 Structures that make up fascia	23
1.3.1 Structures that make up fascial tissues	23
1.4. A review of literature on fascia	28
1.5 Collagen turnover	29
1.6 Nervous system: introduction	31
1.6.1 Somatic nervous system	31
1.6.2 Autonomic nervous system	31
1.7 The brain	33
1.8 Perception and reception	34
1.8.1 Mechanoreceptors	34
1.9 Conclusions	35
Chapter 2. Myofascial lines	37
2.1 Thomas Myers' myofascial meridians	37
2.2 How to read this book	37
2.3 Superficial Back Line (SBL)	38
2.4 Superficial Front Line (SFL)	41
2.5 Lateral Line (LL)	44
2.6 Deep Front Line (DFL)	47
2.7 Spiral Line (SL)	52
2.8 Arm Lines (AL)	54
2.9 Front and Back Functional Lines (FL)	57
Chapter 3. FReE: Fascial Real Emotion	59
3.1 The pillars of FReE method	59
3.2 Five strategies of FReE method	60
3.3 FReE method and training	61
3.3.1 How to plan your training	61
3.4 Teaching – Techniques	63
3.4.1 Unbalanced position	63
3.4.2 Balanced position	64
3.5 Teaching – Verbal communication	66
3.5.1 Contact points, resting points and conductors	66

3.5.2 Fixed, moving and opposing points	67
3.5.3 More terminology	68
3.6 The foot	68
3.6.1 Heel spurs	70
3.6.2 Hallux valgus	71
Chapter 4. Feel it: perception - activation - communication	73
4.1 Feel it strategy	73
4.2 ON/OFF exercises	74
4.3 Exercises to develop the Feel it strategy	75
4.3.1 Wall Feel it exercises	75
4.3.2 Weight-free Feel it exercises	86
4.3.3 Feel it exercises with foam roller/black roll and balls	95
Chapter 5. Mobility: functional mobility - communication	103
5.1 Mobility strategy	103
5.2 Joint by joint theory	106
5.2.1 Mobility and stability	107
5.2.2 Types of movement	107
5.3 Planning a Mobility strategy	108
5.4 Functional mobility exercises	108
5.4.1 Weight-free Mobility exercises	108
5.4.2 Wall Mobility exercises	135
5.4.3 Mobility exercises with tooSL	141
Chapter 6. Stretch: fascial stretching - shape	143
6.1 Stretch strategy	143
6.2 Movement and shape	144
6.3 Stretching techniques	145
6.3.1 FReE - Static stretching	145
6.3.2 FReE - Dynamic stretching	147
6.3.3 FReE - Active dynamic stretching	148
6.3.4 FReE - Isometric stretching	149
6.4 Features of fascial stretching	152
6.5 Stretching intensity and breathing	152
6.6 Planning the Stretch strategy	153
6.7 Person-centered approach	154
6.8 Fascial stretching exercises	154
6.8.1 SBL fascial stretching	155
6.8.2 Wall SBL fascial stretching	165
6.8.3 SFL fascial stretching	166
6.8.4 Wall SFL fascial stretching	175
6.8.5 LL/SL fascial stretching	180
6.8.6 Wall LL/SL fascial stretching	204
6.8.7 LL/SL fascial stretching with tools	211
6.8.8 DFL fascial stretching	214
6.8.9 Wall DFL/AL fascial stretching	220
6.8.10 DFL fascial stretching with tools	224

Chapter 7. Energy: movement - elastic energy	227
7.1 Energy strategy	227
7.1.1 Pre-elasticity	228
7.1.2 Elasticity	228
7.1.3 Plasticity	228
7.1.4 Viscoelasticity	228
7.2 Application to training	229
7.3 Catapult effect	229
7.4 Elastic energy techniques	231
7.5 Planning the Energy strategy (elastic energy)	233
7.6 Energy exercises	233
7.6.1 Weight-free Energy exercises	234
7.6.2 Wall Energy exercises	250
7.6.3 Energy exercises with tools	253
Chapter 8. Release: fascial nutrition - relax	261
8.1 Release strategy	261
8.2 Contraindication	263
8.3 Equipment	263
8.4 Myofascial Release techniques	264
8.5 Planning an ideal training	264
8.6 Myofascial Release exercises	266
8.6.1 SBL Release	267
8.6.2 SBL/LL Release	269
8.6.3 SFL Release	272
8.6.4 LL Release	275
8.6.5 DFL Release	278
8.6.6 AL Release	279
8.6.7 Release breathing	285
Chapter 9. Training programs	287
9.1 Program for healthy feet: heel spurs and hallux valgus	287
9.2 Carpal tunnel and thoracic outlet syndrome program	290
9.3 Program for strong shoulders	293
9.4 Program for the neck	294
9.5 Program for culotte de cheval and cellulite	295
9.6 Program to improve running	300
9.7 Program to improve mobility and flexibility	300
9.8 Pilates programs	304
9.9 Functional training programs	305
9.10 S.O.S exercises	306
9.11 Post- training exercises	307
9.12 F.Re.E Programs	307
Index of exercises	311
Bibliography	315
